

GOLD SECTOR I, U.F.O.

M-A-Y

During March and April we heard from a wide variety of 'contactee'...
all with interesting material to share...and even more interesting info
arriving via numerous UFO groups....it is amazing, and deeply moving to
observe the diligent amassing of bonifide material relating to the
validity of craft...or something at least...in our skies.It is beyond
our understanding how present day investigators could ever be termed
'buffs'...they certainly operate like professionals...in their evaluation,
collection, and dissemination of endless reams of data....

If you want to read some extremely intriguing letters..to and from.. high places in government, military, intelligence etc..of MANY nations, you need to write to:

ICUFON

35-40 75th St #4G Jackson Hts New York, N Y 11372

We would suggest a generous donation, as this man cannot possibly do all this leg work and not receive something substantial in return.

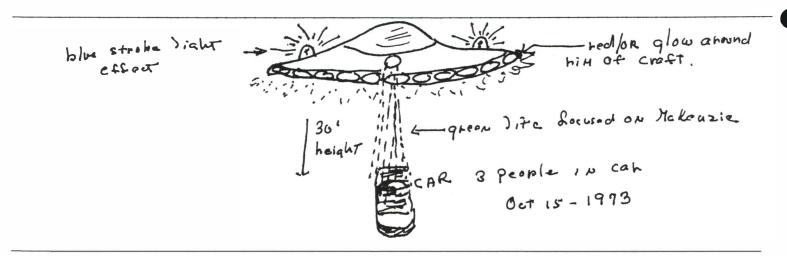

There are many other excellent group work in this subject, and we will try to cover all of them from time to time...so you may select what you feel is your info-line.

We have a great letter from Mac McKenzie, Jr, of Lake Orion, MI...in 1973 he had quite an encounter...a beautiful ship...holding him in a beam of green light...which left him with headaches, high pitched ringing in his ears, an aversion to red meat and water, an ability to heal himself with his thoughts, He has observed basket ball spheres of light in his home and they have been observed over his home. THIS IS STANDARD PROCEDURE FOR A VALID CONTACT. The spheres of light are both information gathering devices and communication relays. They are constructed of 'intelligent crystals' and are programmed to 'self-destruct' if one were to come too close unless a purpose is present for closer exposure to the 'scanner' type instrument.

🙌 wy 🗹

It is our experience that the green beams are more or less assessment energies... searching out whatever weaknesses Mr McKenzie might have had...and then restructoring his form to compensate for these weakneses. His headaches no doubt came from a temporary overload of information and probbing...Obviously he was amplified in the self-healing capacity...and as we said, those balls of light are evidence of a CONTINUING MONITORING of him...In all probabilities, he is <a href="still">still</a> in communication with the inhabitants of his craft.He <a href="may">may</a> become a so-called CHANNEL... but this is absolutely NOT neccessary...for craft occupants can carry on a perfectly reliable exchange with individuals living and expressing here, and actually, in many ways, far more productive, when the communications are based on simple exchanges.

Hopefully, Mr McKenzie will continue to let us know what is going on with his life as it unfolds and becomes further enriched by these kin of mankind.

In the locale of Northampton, Ohio..just outside of Cuyahoga Falls, several people have reported in the past several weeks (March thru May) observing bright lights in the sky, that began to move slowly, then suddenly increased speed, made sudden ninety-degree turns, and began the falling leaf pattern so common to UFO...We are getting this sort of report from an area approximately fifty miles in diameter....thus we are presuming that some sort of heightened activity is in progress.

Also, many people are observing large beams of WHITE LIGHT arcing into the skies from the ground, NOT A CIRCULAR SWEEP AS WITH A SEARCHLIGHT..BUT A STRAIGHT, GROUND TO INFINITY PATH. This has in the past, seemed to indicate a lifting or descent of either warm bodies or objects...to be placed in specific locations.

We would like all of you to do some serious thinking...particularly concerning nucleur explosion in Russia...Please bear in mind that some individuals who seem to know a great amount about scientific research of both the USSR and USA, have in the past indicated that either nation could easily detonate certain targets with similar nucleur patterns, but without the radiation...now...it appears clear that radiation is present from the Russian incident...BUT it may have been precipitated BY US...as the destructed launches of our own may well have been speeded to their demise by a well aimed Russian scaler wave... OR it may be the result of perfectly timed UFO INTERVENTION....One fact is clear, however, the amount of reports, at least in our section, increased from the night BEFORE the Russian incident..and has continued. Furthermore, sensitive individuals 'sensed' something different going on ...

NOW for all of you....WATCH FOR BRIGHT RED FIREBALLS...AND RECORD EVERYTHING DIRECTION OF SPEEDING FIREBALL...ONE OR MORE...TIME....DO THEY FIZZLE OUT OR EXPLODE IN A DISPLAY OF RED FIREWORKS...ARE THERE MORE THAN ONE TOGETHER...OR DO THEY FOLLOW ONE ANOTHER....IS THEIR DIRECTION STRAIGHT, CURVED, DROPPING TO EARTH LIKE A STONE, ARCING HIGH INTO THE HEAVENS AND DISAPPEARING...OR ANY OTHER DATA YOU MAY OBSERVE THAT WE HAVE NOT MENTIONED.

WATCH and observe if <u>numbers</u> of ANY kind of phenomena is present. And, observe the COLORS of fireballs...or meteors...as they are sometime catagorized as.... what days what colors are noted in...

AND...observe YOURSELF....do you have chills at unexplained times, are you unexplainably hot or cold, for any length of time, do you have problems with balance, depth perception, sensory awareness..such as no feeling in legs, hands etc, sharp intense pains at nape of neck, base of spine, breastbone area, forehead or ears....tingling in cheeks, tongue, finger tips, or solar plexus... inability to eat...complete lack of appetite...inability to swallow.... are you having unexplained problems with your vision...misty...eye watering... mucus ...extreme sensitivity to LIGHT, SOUND or TOUCH.....

These are all due to drastic alterations in your individual magnetic field... and will intensify or decrease, according to your 'flowing with' the experience. IT IS DEFINITELY BEING PROVOKED FROM AN OUTSIDE SOURCE....

LET US KNOW....IF ANY OF THESE, OR SIMILAR, EXPERIENCES OCCUR TO YOU IN THE COMING WEEKS.

Recently was reading a 1980 issue of PLANETARY ASSOCIATION FOR CLEAN ENERGY news letter...and discovered within its smorgasbord of material, an article dealing with the Canadian UFO Files....or PROJECT MAGNET...as lifted from Arthru Bray's book, UFO CONNECTION, available from Jupiter Publishing, P. O. Box 5528, Stn 'F', Ottawa, K2C 3M1, CANADA...\$8.50 paperback...at that time.

In this condensed version of material, is this bit..' On August 8th, 1954, the incredible happened. The Shirleys Bay complex registered a definite disturbance, with all of the instrumentation seeming to indicate scientific documented and measurable evidence THAT A UFO HAD PASSED OVER THE FACILITY. Even more incredibly, the Department of Transport announced two days later that it was dropping PROJECT MAGNET. This seemingly irrational decision to discontinue a project just as it had begun to indicate spectacular signs of success was but a forerunner of things to come, as the governmental veil of secrecy began to descend.

PROJECT MAGNET was classified, and consisted of detailed gathering and analysis of sighting reports, as well as the extrapolation of facts from the data what would indicate the presence and workings of a previously unknown magnetic-based technology for UFO'S...A complex installation was set up in November of 1953 at SHIRLEYS BAY, near Ottawa, to provide instrumentation detection for validating the research work. Devices included a gamma ray counter for measuring cosmic radiation associated with UFO phenomena, magnetometers to detect shifts or disturbances in the earth's magnetic field, a recording gravimeter to measure any gravitational variation, and sensitive radio apparatus.

According to Bray, it was believed that Flying Saucers were pperating on magnetic principles and it seemed that this work might explain the saucers operation. Smith had been informed by highly placed sources that flying saucers are indeed real, that they are almost certainly of extraterrestrial origin, and that they operated on a magnetic principle. Just how this principle actually operated is unknown, however. (Smith was Wilbert B Smith, who headed PROJECT MAGNET...a senior radio engineer.

This entire picture is one that is repeated over and over again...as several excellent UFO investigating groups are prooving every day...and publishing their material for more of us to evaluate with greater regularity....and.. what does it SAY???? Are World Governments AFRAID ? Do they KNOW something we do not, and SHOULD we know ? Write:
